

WeekReport_2019-05-20_05-26_E

Week Overview

- $8 + 8 + 8 + 9 + 8 + 0 + 4 = 44$ hours

Project: GraphLayout

- this week I mainly read the code of FM3 in ogdf
- The splitting of points in multilevel is very complicated and is not explained in detail in the paper.
- I intergrate all of the part of FM3 into our own code
- there may lot of bugs and I will check them next week

G.js

- I have modified the structure of element many times. but I am still not statisfied the design of this part
- I write a d3-force layout code into our code.

SciVIs Course

- I introduce our data format to my teammates. He will work on th origin data for our graph rendering

Other

- attend the kickstart Round3 and got 162th.

Short-term perspective

Work	deadline	Tip
debug the FM3 multilevel	Friday	
write a force layout about our scivis course	Tuesday	

Long-term perspective

Work	deadline	Tip or Progress
GraphLayout	6.1	modify the multilevel
G.js	2021 year
